

Repeat Prescriptions

Purpose: ManageMyHealth provides the ability for patients to request repeat prescriptions of their regular medications.

Setting Up Repeat Prescriptions

NB: this function can only be setup by the System Administrator for MMH.

1. Log in to your ManageMyHealth -> Systems Menu -> Repeat Script Settings
2. Click 'edit' at the bottom of the page

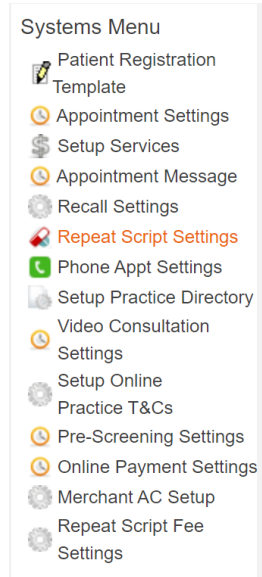

3. The Health Centre and Service name will display by default

Health Centre: VM 06 Millstone Family Practice

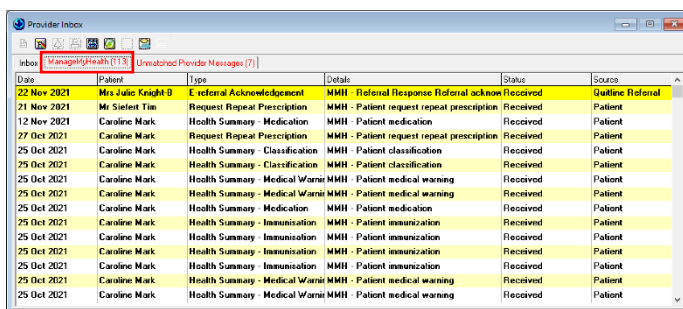

Service Name: Repeat Prescription

4. Complete the form, paying attention to each field and selecting the most appropriate response for your clinic.
5. If you need more information about which option to select, click on this icon: 
6. Once you have completed the form, click Save.

Approving and Rejecting Repeat Prescription Requests

All prescription requests are viewed through the Provider Inbox in your PMS – ensure you are in the ManageMyHealth tab.
